

KALANA WANNIARACHCHI

SOFTWARE ENGINEER INTERN

📍 Colombo, Sri Lanka 📞 +94 76 177 4000 ✉️ kalanasandeep345@gmail.com
🌐 LinkedIn | 🐙 GitHub | 🌐 Portfolio

SUMMARY

I'm Kalana, a third-year Software Engineering undergraduate at SLIIT with hands-on experience in full-stack web and mobile application development. Proficient in JavaScript, React.js, Node.js, MongoDB, Java, and Kotlin, with a strong interest in building scalable and user-focused software solutions. A motivated and fast learner with strong problem-solving and communication skills, currently seeking an internship opportunity to gain industry experience and contribute to real-world development projects.

EDUCATION

BSc (Hons) in Software Engineering

Sri Lanka Institute of Information Technology (SLIIT)

GPA: 2.91/4.0

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, C, Kotlin
- **Frontend:** HTML, CSS, React.js, Next.js, React Native (Expo)
- **Backend:** Spring Boot, Node.js, Express.js
- **Databases:** MongoDB, MySQL, postgresql, firebase

PROJECTS

E-Commerce Beauty Products Platform 🐙 [GitHub](#)

2025

- Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Designed and developed a full-stack e-commerce application for beauty products.
- Implemented features such as product listing, user authentication, cart management, and order handling.
- Built RESTful APIs and a responsive frontend for smooth user experience.

2025

Finance Tracker Mobile Application 🐙 [GitHub](#)

- Technologies: Kotlin, Android Studio, SharedPreferences
- Built an Android application to track daily income and expenses with a simple and user-friendly interface.
- Used SharedPreferences for local data storage and persistent state management.
- Improved budgeting awareness through categorized expense tracking.

Wild Safari Booking System 🐙 [GitHub](#)

2024 - 2025

- Technologies: Java, Spring Boot
- Developed a web-based booking system to manage safari reservations, user registrations, and booking records.
- Implemented backend services using Spring Boot with structured APIs and database integration.
- Focused on clean architecture, validation, and efficient data handling.

- Technologies: HTML, CSS, PHP
- Developed a web-based system to manage blood donor registrations, blood requests, and donor information.
- Implemented server-side functionality using PHP for form handling and data processing.
- Designed responsive user interfaces using HTML and CSS to ensure usability and accessibility.

ADDITIONAL INFORMATION

- **Availability:** Available for internship
- **Interests:** Full-stack development, mobile application development, learning new technologies
- **Strengths:** Quick learner, team player, strong problem-solving and Time Management
